EXPERIENCE

YBI Foundation, Remote — Machine Learning Intern

Nov 2021 - Dec 2021

Used Classification and Regression Supervised ML Algorithms on the following Projects:-

1. Boston Housing Price Prediction
2. Diabetes Prediction
3. Loan Prediction

EDUCATION

Vidya Pratishthan's Kamalnayan Bajaj Institute of Engineering and Technology, Baramati — B.E. Artificial Intelligence and Data Science

2020 - 2024

SGPA: 7.8

Dayanand Science College, Latur — H.S.C.(P.C.M)

2018 - 2020

HSC: 79.38%

PROJECTS

Diabetes Prediction —

Built a Diabetes Prediction Model using Supervised Machine Learning on PIMA Diabetes Dataset. Cleaned, applied and trained data on Naive Bayes Algorithm which gave accuracy of ~89%.

SKILLS

Problem Solving, Data Structures and Algorithms, Algorithmic Analysis, Statistics, Database Management, SQL, EDA, Machine Learning, Data Analysis, Visualization.

CERTIFICATIONS

- Google Data Analytics
- Programming, Data Structures and Algorithms using Python
- Introduction to Machine Learning
- Introduction to Quantum Computing
- Python Basics for Data Science
- R Essentials for Data Science

LANGUAGES

Python, R, C++, Java, LaTeX, Lisp, MySQL, MongoDB
